Mandala Sticky Notes – The classic sticky note with the personal touch

The self-adhesive and repositionable mandala product is the perfect alternative to ordinary sticky notes. The well-known and popular yellow mandala sticky note is now available in white. Be creative and start coloring – for example during a phone call – for a better concentration, some diversification or just to pass some time. The Mandala theme loans each of your sticky notes an individual and personal touch. The Mandala pre-print covers 1/3 of the sticky note surface and can be easily overwritten because of the smooth print. So it also can be used as an ordinary sticky note.

- Stick to various papers and surfaces
- Residue-free and easily removable
- Water-based and solvent-free adhesive
- FSC-certified
- Made in Germany
